

Json data storing in SQLite With FMDB

.Add FMDB to pjct through Cocoapods

```
platform :ios, '4.0'  -----optional
```

```
target 'SQLiteSample' do
```

```
  use_frameworks!
```

```
  pod 'FMDB'
```

```
end
```

2. Add Bridging Header

File->New File -> Select Objective-C .m file ->OptionFor adding bridging header ->click open bridging header. Add

```
#import "FMDB.h"
```
